

See it before we build it.

The \$2,000 design fee. 100% credited to your build.

Every Golden Maple project begins with a Design Package — a professional, on-site architectural assessment and 3D rendering process that transforms your ideas into a clear, buildable vision. You see exactly what your outdoor space will look like before construction begins. The \$2,000 fee covers the full design process and is credited 100% toward your build. It's not an added cost — it's the foundation of a project done right.

WHAT'S INCLUDED — \$2,000 DESIGN PACKAGE

- ✓ On-site architectural assessment of your property
- ✓ 3D conceptual rendering — 1 full revision included
- ✓ 2 design concept revisions based on your feedback
- ✓ Material selection & sourcing guidance
- ✓ Integrated lighting design within the overall plan
- ✓ Full itemized construction quote tied to the design
- ✓ \$2,000 fee — 100% credited toward your build

ADDITIONAL OPTIONS

- Master planning for full-property phased development
- Phased construction planning (build in stages over time)
- Outdoor kitchen layout & appliance integration planning
- Permit application handling for regulated structures
- Design-only package (no construction): from \$5,000

From \$2,000

100% credited to your build · Design-only from \$5,000

✓ WSIB Certified

✓ \$5M Liability

✓ 10-Year Warranty

✓ 5.0★ Google

✓ Fixed-Price Quotes

WHY GOLDEN MAPLE

See It Before We Build It

Our 3D renderings give you a photorealistic view of your finished outdoor space before a single shovel hits the ground. You approve the vision — then we build it exactly as shown.

\$2,000 Fully Credited

The Design Package fee is not an additional cost — it's a deposit. Every dollar is credited toward your construction project. You get professional design at zero net cost when you build with us.

Integrated Design Thinking

We design hardscape, lighting, outdoor kitchen, and fire features as a unified system — not as separate afterthoughts. The result is a cohesive outdoor environment that flows and functions as a whole.

Design-Only Option Available

Not ready to build yet? We offer a standalone design package starting at \$5,000 — including full architectural 3D rendering, 2 design revisions, and 1 final render revision. Perfect for planning ahead.

OUR DESIGN PROCESS

01

Site Consultation

We visit your property, assess the space, discuss your vision, lifestyle, and budget, and identify any site constraints or opportunities.

02

Concept Development

Our design team develops 3D conceptual renderings based on the site assessment. You review and provide feedback for revision.

03

Material Selection

We walk you through material options — stone, decking, lighting, and features — and finalize selections that match your aesthetic and budget.

04

Construction Quote

A full itemized quote is prepared, tied directly to the approved design. The \$2,000 Design Package fee is credited in full at this stage.

FREQUENTLY ASKED QUESTIONS

What exactly does the \$2,000 cover?

The Design Package includes an on-site architectural assessment, a 3D conceptual rendering with one revision, two design concept revisions, material selection guidance, integrated lighting design, and a full itemized construction quote. The \$2,000 is 100% credited toward your build — so if you proceed, it costs you nothing extra.

What if I only want the design, not the construction?

We offer a design-only service starting at \$5,000. This includes full architectural 3D rendering, two design revisions, and one final render revision. It's ideal for clients who want a professional plan before committing to construction, or who are planning a phased build over time.

How long does the design process take?

From site consultation to final approved design typically takes 2–4 weeks, depending on project complexity and revision cycles. We'll give you a specific timeline at the consultation so you can plan accordingly.
